Mary depends on Meals on Wheels for her meals every day. She is alone and not able to go to the grocery store or prepare meals due to health challenges. She is on multiple medications to help with her health issues but they cause her to feel unsafe driving, so the meals she receives are very helpful and give her a sense of security. Mary has a cat named Mattie that she rescued after losing her 17 year old fur baby. She is comforted knowing that with AniMeals, she won't run out of cat food. "Meals on Wheels is a life-saver for me!"
